Andrew Strigaliov, Senior Software Developer

Warsaw, Poland, +48516395191, strigaliov4working@gmail.com

PROFILE

My whole career is related to tech startups. Most of them made or raised millions of USD. I have been through the entire software development cycle from scratch to enterprise multiple times. This experience and technical education allowed me to become a professional in Software Development. It helps me to clearly detect business goals, analyze the market, accurately estimate deadlines, effectively manage teams, and plan the future stages of product development.
